## **Personal Profile**

I am a web developer that delivers high quality work to deadlines with speed and precision. I have a pleasant and polite manner with an outgoing personality. My strengths include the ability to be an active team member but also can work independently with little or no supervision and a high attention to detail. I am a non-smoker and I have a clean full UK drivers license.

## **Skills / Abilities**

I have several years experience working with computers, and I am competent in the following web sectors:

- X/HTML
- CSS
- XML
- JavaScript/jQuery
- SEO
- Drupal CMS
- e-mail marketing

I also have experience with the following web languages:

- ASP
- PHP
- Action Script 2.0
- MySQL
- SharePoint

My software skills include:

- Adobe Dreamweaver
- Adobe Photoshop
- Adobe Flash
- Adobe Illustrator
- Adobe Fireworks
- Adobe Premiere Pro
- Adobe Encore
- Complete Microsoft Office suite including Visio, SharePoint Designer and InfoPath

The websites I build are pixel perfect to Photoshop mock-ups, and built with without the use of tables. I also have the ability to build and repair computers. I have built many computers and have provided a repairing service to many people. In addition, I have knowledge about networks (wireless and wired), installation of software and hardware. I can also explain technical information in a simple manner to people who may not be very technical.

## ***Employment History***

### **Blemain Group**

Bracken House, Charles Street, Manchester, M1 7BD

**June 2010 - September 2011** - Junior Web Developer

**September 2011 - present** - Web Developer

I am currently in full time employment working as a Web Developer for a in-house marketing team, where I help maintain several websites. This maintenance involves adding newsletters, news articles, seasonal promotions, general content amends and overall management and monitoring of these sites via Google Analytics and Google Webmaster Tools.

My role also involves building marketing HTML e-mails, and periodically providing on demand web amends. Internally, I am the specialist for Microsoft InfoPath form development and Microsoft SharePoint intranet site building or amends. I helped redesign the intranet homepage to fully utilise its potential. Following the success of this, I helped build intranet sites for various departments throughout the company. I also built Microsoft InfoPath forms for Employee of the Quarter, a Suggestion Scheme, and redeveloped and internal marketing job briefing method (Marketing Briefing Form). The entire company uses these forms and the Marketing Briefing Form has become essential to the business. When required, I have also been able to provide design assistance to the design team. In developing these sites, I have presented and held meetings acting as a mediator.

My colleagues also voted me employee of the quarter on two separate occasions. The first being awarded after only 6 weeks of employment.

I started my career as a Junior Web Developer and was promoted to Web Developer in September 2011.
